Capgemini Apex Commercial Bank - Core Banking Policy 2026

Section 1: Customer Account Opening and KYC Onboarding Guidelines

1.1 Customer Identity Verification (KYC Requirements):

Every prospective customer must submit one officially valid government document (Aadhaar Card, Passport, or PAN).

Customer accounts initially registered online are held in KYC_PENDING state until audited by bank staff.

Bank staff must perform physical or video biometric verification before approving the account status.

Upon staff approval, the core banking engine generates a unique 10-digit primary account number (e.g. AC8392019482).

1.2 Minimum Balance Maintenance & Penalties:

Standard Savings Account holders are required to maintain an Average Monthly Balance (AMB) of 2,000 INR.

If the AMB falls below the threshold, a non-maintenance charge of 150 INR plus GST is levied at the end of each cycle.

Zero balance payroll accounts and student accounts are exempted from minimum balance requirements.

1.3 Account Dormancy Rules:

An account with no customer-induced financial transactions for 12 consecutive months is classified as Inactive.

If no transaction occurs for 24 months, the account is moved to Dormant status.

Reactivation requires physical KYC submission at a home branch.

Section 2: Credit Card Issuance, Limits, and Cash Advance Policies

2.1 Credit Card Eligibility Criteria:

Credit cards are issued to customers holding an active savings account with a minimum credit rating of 700.

The standard credit limit is established at 2.5 times the customer verifiable monthly net salary.

Cardholders must pay a minimum amount due (MAD) of 5% of the total monthly statement balance.

2.2 Interest Charges on Revolving Credit:

If the total outstanding statement is not settled by the due date, finance charges of 3.5% per month (42% APR) are applied from the transaction date until full payment is realized.

2.3 Cash Advance and International Transactions:

ATM cash withdrawal on credit cards incurs a 2.5% transaction fee (minimum 500 INR) with immediate interest accrual.

Foreign currency transactions incur a standard markup fee of 3.50% on Platinum cards and 1.99% on Signature cards.

2.4 Lost Card and Fraud Liability:

Cardholders must report lost or stolen cards immediately through the mobile app or 24/7 helpline.

Zero liability protection applies to fraudulent transactions reported within 24 hours of occurrence.
